

A-LIST HOLLYWOOD RED CARPET TREATMENT *arrives in Beaconsfield*

**iS CLINICAL FIRE
& ICE FACIAL
TREATMENT
£125, 45 mins**

The celebrity users...

A firm favourite of Gwyneth Paltrow and Halle Berry and long standing best selling treatment at the Four Seasons, Beverley Hills, the incredible iS Clinical Fire & Ice treatment launches at S-Thetics, Beaconsfield.

The treatment...

iS Clinical Fire & Ice is a results led clinical treatment that acts like a mild peel, combining glycolic acid with retinol to resurface the skin, treat problematic skin, reduce fine lines and encourage cellular renewal. The facial comprises of two professional treatment masques combined with carefully selected iS Clinical products to optimise results and create a treatment that bridges the gap between a mild facial and an invasive peel.

The masques...

The intensive resurfacing masque is clinically formulated with; sugar cane extract (a source of glycolic acid) citric acid, apple extract, retinol (Vitamin A), niacinamide (vitamin B3), and the potent antioxidants including green tea extract. The rejuvenating masque is a soothing, hydrating treatment formulated with sodium hyaluronate (hyaluronic acid), aloe vera, green tea extract, liquorice, grape extract and rosemary extract.

The results...

This treatment, known as the 'Hollywood Red Carpet Facial' removes the top loose layers of the epidermis, whilst the superficial trauma caused to the skin, stimulates the skins healing mechanism to boost collagen production. Perfect for re-surfacing the skin delivering clearer, smoother and tighter complexion that is instantly more radiant and has a youthful glow.

Miss Sherina Balaratnam recommends...

SURGEON AND MEDICAL AESTHETIC SPECIALIST

'Improvements in ageing, hyperpigmentation, acne, and other conditions can be seen with appropriate resurfacing, especially if combined with other ingredients targeting the other processes involved in the cause of the individual conditions. This is why we have adopted the less is more approach at S-Thetics with the primary focus of ageing well. Facial rejuvenation isn't about 'change'. Our aim is to use the beauty of the existing patient and to introduce treatments that will restore and enhance what nature has already blessed us with but that time has naturally taken away.'
