Transform your skin with our best selling  
multi tasking Active Serum™

“

I'm very loyal to iS Clinical, but there is one product in particular that I would recommend to everyone, and that's the Active Serum. It's a bit of an investment product, but trust me, it changed my skin. It clears, brightens and just gives my face that lift it needs. ”

“

I use the Active Serum, with glycolic, kojic and salicylic acid to exfoliate and boost radiance. ”

“

I have a brilliant facialist called Shani Darden. She recommended iS Clinical Active Serum and said it would stop me getting wrinkles and breakouts. And she was right – I haven't broken during this pregnancy and I've noticed the fine lines starting to go away. ”
